

DISPOSABLE SHOPPING CART HANDLE SANITARY COVER

ABSTRACT

A cart grip sanitary cover is provided having multiple layers each with a top face, a bottom face, and a periphery formed therebetween. The bottom face of each layer has adhesive formed thereon for adhering to a top face of an adjacent layer therebeneath. The layers are stacked with a bottommost layer being attachable to a grip of a cart. In use, a topmost layer of the sanitary cover is removable for exposing another layer therebeneath for providing a sanitary surface to be gripped by a user.
